

Pricing

To display the price of a product associated with an image, first select the image you are interested in. To do this, continue clicking on the Group/Gallery/Folder/Image until you see the image you want on the left and the thumbnail images on the right. Under the thumbnails section, you may see a Featured Products table listing the featured products and their associated prices.

To see all products available, the “View All Products” link at the bottom of the Featured Products list will provide a pop up window that shows all products and their prices.

Additional product prices, such as frames and mounting options, can be seen once an item is put in your shopping cart and you select the Frame It link.

If you don't see a product that you want or have other pricing questions please email me at Frank@FrankFennemaPhotography.com or call 415-889-4220 with what you are looking for.

Thank you.
